

Green Loan Principles¹

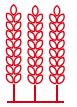

What is in scope/required?

A loan instrument, particularly focusing on **Term Lending**

Green loans should align with the four core components below:

Support of Green projects including, but not limited, to...

Renewable energy, including storage & smart grids		Green buildings	
Pollution prevention and control, including reduction of air emissions and greenhouse gas control		Eco-efficient and/or circular economy adapted products; production technologies and processes	
Clean transportation		Sustainable management of living and natural resources and land use	
Energy efficiency		Terrestrial and aquatic biodiversity conservation	
Climate change adaptation		Waste prevention, reduction, recycling; waste to energy; products from waste	
Sustainable water and wastewater management		Sustainable animal husbandry; climate smart farm inputs (e.g. crop protection)
